

# Juan García Marín

Full Stack Developer

**Email:** juan.gm.inc@gmail.com  
**Phone:** 654065706  
**GitHub:** github.com/j1-dev  
**LinkedIn:** linkedin.com/in/juan-garcia-marin  
**Portfolio:** j1.lol

## Profile

Full Stack Developer with hands-on experience in building web and mobile applications. Skilled in React, Angular, Next.js, Java Spring Boot, Docker, PostgreSQL, Supabase, and MongoDB. Proactive problem-solver with a strong focus on teamwork, code quality, and efficient development processes.

## Professional Experience

**Software Developer (Internship) — CGI Inc.** *Lisbon, Portugal* *Mar 2024 – Jun 2024*

- Contributed to an internal job proposal management system to automate workflows across departments.
- **Backend:** Developed microservices with Spring Boot; designed REST APIs; implemented persistence using Spring Data JPA and PostgreSQL.
- **Frontend:** Built modular Angular components and services using RxJS for real-time data handling.
- **DevOps:** Containerized services with Docker and contributed to deployment processes.
- Collaborated in weekly SCRUM sprints; coordinated with the HR team; produced technical documentation in Confluence.
- Delivered a fully functional MVP ready for deployment within CGI's intranet.

## Highlighted Projects

**j1.wtf** *Jan – Apr 2023*  
Real-time social network with user posts, following, and a dynamic feed. *Technologies: React.js, Firebase*

**intellipic.es** *May – Dec 2023*  
AI-powered image generator from text and photos. *Technologies: Next.js (SSR), Supabase, OpenAI API*

**Job Proposal Manager — CGI** *Mar – Jun 2024*  
Internal workflow system for creating and approving job proposals. *Technologies: Spring Boot, Angular, PostgreSQL, Docker/K8s*

**Leelo** *Aug – Dec 2024*  
Reddit-style mobile app with real-time threads and comments. *Technologies: React Native, Firebase*

**Seal** *Jan – Mar 2025*  
Performance-focused rewrite of j1.wtf, improving SEO and server-side rendering. *Technologies: Next.js, Supabase, Tailwind CSS*

## Personal Portfolio

Mar 2025 – Present

Professional website showcasing personal projects and contact options. *Technologies: Next.js, Tailwind CSS*

## Flowtrack

Jun – Oct 2025

Calendar-based application for task and habit management. *Technologies: Next.js, Prisma ORM, Tailwind CSS, PostgreSQL*

## Technical Skills

---

**Front-End:** React.js, Angular, Next.js, React Native

**Back-End:** Java Spring Boot, REST APIs, Microservices

**Databases:** PostgreSQL, MySQL, Supabase, MongoDB

**DevOps:** Docker, Docker Compose, CI/CD

**Other:** SCRUM, responsive design, Tailwind CSS

## Education

---

**FP Master in Artificial Intelligence & Big Data** DigitechFP — Málaga 2025 – Present

**Higher Vocational Training in Multiplatform Application Development** I.E.S. Vega de Mijas — Málaga 2022 – 2024

## Languages

---

**Spanish:** Native

**English:** C2 (Bilingual)
